REICH WAR CRIPPLES BERLIN PLANTS

R.A.F. Master Plan Cripples Berlin Plants

Arms Factories Wrecked, Capital's Post Office Guttered, Railway Services Disrupted By Bombers

LONDON, Oct. 18.—The Royal Air Force's "master scheme of bombing Germany," the air ministry news service said today, has "partially wrecked several war factories in Berlin, almost gutted the Berlin general post office and seriously affected rail and water transport as well as damaging great industrial plants over a wide area."

The information service said its statement was based on fresh information drawn from "reliable neutral sources."

EXAMINATIONS WRITTEN HERE BY OBSERVERS

Successful Results Expected From All Of First Air Class

First graduation class of the R.A.F. Observer School of the British Commonwealth Air Training Plan, in Edmonton, on Friday were writing final examinations for completion of their 15-week course in navigation here.

For three months the young men, all having the rank of leading air-craftman, have been studying hard in direction finding, map reading, navigation by dead reckoning, compass and ground control, meteorology and other subjects.

TOUGH EXAM

"The examinations certainly are tough," one of the students told The Bulletin.

The young observers, however, have been studying hard, with a thorough insight in their work and not a single failure is expected in the tests. It was learned from one of the senior officers of the school. The men were carefully selected for the school, as navigation is a highly specialized branch of air service.

From here they will go to a bombing and gunnery school for a 10-week course before their graduation. On graduation from the full course, many will be commissioned as officers, while some will be given the rank of sergeant for a time.

To conclude their course here, the students are holding a ball, a quiet and dance Friday evening at the Macdonald hotel.

Two other classes of students started a month apart, still are studying and will take tests a month and two months from now, respectively.

Royal Family Sees Scenes Of German Bomb Destruction

LONDON, Oct. 18.—What a terrible business it is! said Queen Elizabeth, gazing at a scene of bomb destruction in London today.

The King, writhing a busy demotion, said philosophically, "At least, I am glad for the fact that clearing up is going on so well."

Queen Margaret was shown by Admiral Sir Edward Grey, the British minister in Berlin, a spot where a shell had exploded and a record direct hit.

Forestry Head

BRIG-GEN J. B. WHITE, D.S.O., E.D.C., general officer commanding the Canadian Forestry Corps, has been awarded the forestry industry all his life and was director of timber operations in France during the last war.

BURMA ROAD BLOCKED WITH TRUCK TRAFFIC

Anti-Aircraft Guns Protect Highway At Several Points

HONG KONG, Oct. 18.—The headquarters of the Japanese South China fleet announced that Japanese naval aircraft today attacked the Burma Road, southwest of China, in the newly re-opened Burma road. It was the first Japanese attack connected with the road re-opening.

The Japanese said bombs were dropped in Chinese munitions factories in the suburbs and military establishments within the city. Japanese planes dived at the city, and at the time the news was gathered only seven out of the 25 cranes on the quay were working.

The news agency said that "communications have been severed of damage done to petrol and synthetic oil plants at Peking near Beijing."

At Bitterfeld large aluminum works "were closed for some time after a heavy raid," said the agency. In the Rhineland, "the Westphalia electric works have been badly damaged. It will be some time before they come into full operation again."

At Bremer the output of the Diesel motor car factory has been reduced by one-third because of damage done to the plant by a bomb. At Wismar "one harbor was completely gutted and all aircraft inside destroyed."

Faders Again Try Thrusts At Empire Capital

Heavy Mist Overhanging Strait Of Dover Limits Germans To Single Attack In Daylight Hours

LONDON, Oct. 18.—The air ministry and ministry of home security announced tonight that the only raids on Britain today were made by a "very small number" of enemy planes, operating singly, and there was little damage and few casualties.

LONDON, Oct. 18.—Nazi raiders lunged at London with a new fury tonight and were met by a terrific anti-aircraft barrage which sounded as though the guns were being redeployed and fired on the rebound.

Despite a heavy mist overhanging the Strait of Dover and a chill northeast wind, the Germans followed up a single daylight assault by opening the forty-second consecutive night of air attack directed at this capital.

The only daylight attack ended before midnight. Londoners saw little of the afternoon raid because of dense clouds, but the drone of motors could be heard.

During the night, the enemy attacked with dozens of small groups of fighter-bombers. London, the Liverpool dock area and a town in the Midlands were the principal targets.

Dwelling houses bore the brunt of the attack, but first reports indicated that casualties were few. The ministry of air and home security said that the enemy had been repulsed.

The raiders came earlier in the night than previously and stayed longer. The enemy had been operating at a time, in contrast to the former tactics of 100 or more planes in an opening rush, followed by small waves.

The Press Association said the raids against Liverpool and other Merseyside targets during the night and early today represented one of the most widespread attacks for some time. It said, however, that the aerial campaign caused some damage, but casualties were slight.

LONDON, Oct. 18.—The bomb-smashing of a German attempt at sea-borne invasion of England on September 16, with Nazi troops forced by the Royal Air Force to disembark before their ships could shore off from the invasion coast, was officially reported today.

A brief mention by the air ministry news service and slight elaboration by authoritative aviation sources and the press association, belatedly filled out announcements at the time to present a picture of a terrific assault on the German-held invasion ports in which several German ships were sunk or damaged.

Full credit for nipping the budding invasion and throwing Hitler's timetable completely out of kilter went, as officially reported today, to the "bravery of the air force."

Elements Factor
Peculiarly together as well as principle considering official reports, the story of the invasion that might have been shown that the elements conspired with Britain's defenders.

The R.A.F. struck about midnight, a time that a gale in the English Channel scattered parts of German formations.

At full moon, the brightest of the year, had shone on the invasion coast, the R.A.F. was on the mark. German ships but also an air attack in which 180 German machines were destroyed seems to have been a disaster.

It was beyond a doubt that Sept. 16 was chosen as day of Hitler's, said the press association.

The press association's thesis was that the tempestuous aerial pounding of Britain on Sept. 15—intentionally marked by a reported personal reconnaissance of London by Goering—was intended to dismay and soften the British defenses.

But, authoritative quarters indicated, the R.A.F. was in full touch with the situation.

"After German troops were loaded onto their ships preparatory to having the Channel crossing, R.A.F. bombers sped to the invasion coast, making it impossible for the ferocity of their attack," these quarters declared.

On Sept. 16, the R.A.F. campaign told of a direct hit on a German transport ship, a ship on an oil tanker and supply ship and the sinking of three supply ships and damage to others.

Many Points Hit
Also attacked that day were communications of war supplies, a large ship and shipyard at Hamburg, Wilhelmshaven, Antwerp, Flushing, Ostend, Dunkerque, Calais, Boulogne and Le Havre—virtually the entire invasion coast and the occupied low countries and France.

Whether the promising of German invasion facilities was, however, sufficient to cause the Nazis to give up their long-range plan, the aviation sources would not say.

The aviation sources of the British air force was given official notice by the air ministry news service which first reported it.

The service said that "a reliable neutral source" as saying that "on Sept. 16, 1940, the German invasion fleet was broken up and the ships were sunk or damaged."

Others Possible
It was the first official acknowledgment that German troops had been repulsed. The announcement covering the R.A.F. campaign for that day said that it did not depict "an aerial battle of attrition, but a performance of a similar nature by the R.A.F."

SECRET HOUSE SESSION SEEN AS NECESSITY

Issue Of Betraying War Secrets Promises Acrimonious Debate

By R. T. RICHARDSON
Edmonton Bulletin Ottawa Bureau

PARLIAMENT, Oct. 18.—No avian-minister debate for the next session of parliament is shaping up over issue of betraying war secrets. It is probable that the government will lead far into fields where a secret session of the House of Commons is required.

The Conservatives are aiming themselves with facts and figures regarding disclosure by cabinet ministers. Following the storm around Canada by Hon. B. Bennett's disclosure of the transfer of British air training to Canada, in addition to the Commons, the House of Commons is expected to be the target of severe censure by newspapers, Liberal and Conservative alike, across Canada.

The incident promises to provide a feature of parliamentary discussion. The government is already ahead that only a secret session will permit adequate discussion.

CLOSE TO LINE
In several instances, cabinet ministers have been fairly close to the line on certain matters, especially in the case of information. One example was Hon. C. D. Stewart's report on a statement in Washington regarding air training program in Canada, in which he said that "disclosure is planned on disclosure made by ministers to delegations."

Whether happened, the pending paper quelled over Mr. Bennett's disclosure was a serious matter to shut down the source of information on the war effort. New information is likely to attract new disclosures to delegations.

Hon. J. G. Gardner
Received By King
LONDON, Oct. 18.—The King today received Hon. James Gardner, Canadian minister of agriculture, in audience at Buckingham Palace.

Nazis Are Again Claiming Barham Suffers Damage

from Algeciras, Spain, that the British battleship Barham had been taken into drydock at Gibraltar apparently suffering heavy damage.

LONDON, Oct. 18.—The admiralty said today that to comment on a German radio report from Algeciras, Spain, that the battleship Barham was "apparently heavily dam-

aged and drydocked at Gibraltar would be "playing the German game," since they "obviously only put out these reports to find out where the ship is."

and for all the question of whether Argentine sovereignty was being threatened."

RONALD MAUNDER
General Manager

**Why It Pays to Buy Your
Furniture at the National
Home Furnishers**

FAITH
entered business in prohibitive times, when
cavemen laid aside their clubs to trust one
another in battling, when might was cast
aside in favor of the handshake.

Thus men found that by mutual
trust and confidence, there was
greater unity against common
enemies. The beginning of this
faith came with realization that a
fair exchange of commodities
was entirely satisfactory to all, and
that service rendered was
worthy of hire. We have built
The National Home Furnishers
on mutual faith—faith in the
province—faith in its people, and
the faith of our customers in
our honest merchandising. Our
most valued possessions are the
handshakes we receive from our
customers, who by trading
here again and again have be-
come our warmest friends.

GERMAN ARMY PLANS WINTER STAY FINLAND

Agreement Gives the Nazis Strategic Position On Arctic

STOCKHOLM, Oct. 18.—It was learned here today that German troops, designated for northern Norway, may be stationed in northern Finland throughout the winter under the German-Finnish armistice agreement.

Observers said the agreement gives the Germans an improved strategic position on the Arctic cap of Scandinavia, close to the Finnish iron and nickel mines and outside the vital Petsamo highway.

This is the area in which the International Nickel Company of Canada has extensive development. Work on these developments was interrupted last winter by the Russian-Finnish war.

CLOSE TO ICELAND

Observers said the German troops could be moved in Finland in large numbers, and used ultimately, when the expedition in Iceland or Greenland or defensively against any possible British landing in the north.

"Canada has had a number of troops in Iceland since last spring as a precaution against a possible German invasion. Iceland, linked with German-occupied Denmark by common allegiance to the Danish crown, was occupied by British troops May 10, the day Hitler launched his drive through the north.

Iceland was given explicit guarantees that no force would be withdrawn at the end of the war.

First Glimpse Of Peace

Small wonder these British refugee children climb the railing to get a better view of New York as they recently arrived from England on the Samarra—one of three ships bringing over 300 youngsters to America. Their first view of peace in over a year. They may be among the last British refugees to come to the United States before announced to more would be allowed to risk the Atlantic crossing.

Ordered Home

MELBOURNE, Oct. 18.—Forty Mormon missionaries from all states in the Commonwealth have been ordered to return to the United States immediately. It was learned Thursday that the reason for the action was given, but it was assumed it was due to unsettled conditions in the Pacific.

Perfection in Winter PROTECTION

THE Society Brand HUDDERTON OVERCOAT \$35.00

This specially knitted fabric gives unusually long wear. The long fibred wool used in this coating is storm proof and water repellent. Beautifully tailored by Society Brand—modestly priced for such quality, the Hudderton is truly a coat you treasure.

NO HIGH POSTS IN FRANCE FOR JEWISH PEOPLE

VICHY, France, Oct. 18.—The Vichy government declared on Thursday night that it intends to keep Jews out of high positions in unoccupied France, but promised that their persons and property will be respected.

A government statement of policy stated the Jews for constituting "no small degree" to the French defeat, and forewarned certain forthcoming Jewish statutes that it made it clear that the unoccupied zone will be a happy place for persons of Jewish birth than the areas held by the German army.

Readers barring the Jews from social leadership, the statement said they would be prevented from having a part in the "formation of new."

It described the impending Jewish statutes as "indispensable to security" and "a mere question of vengeance."

The government promised, also, to take no measures against Jews "who have shown their value to the (German) state." It cited this exception as characteristic of the regime's "spirit of humanity."

ARSENALS ARE PLACED UNDER SUPPLY DEPT.

OTTAWA, Oct. 18.—Administration of national arsenals has been formally transferred from the defence department to the munitions and supply department, Munitions Minister Howe said Thursday night in a statement.

Defence Minister Balcan announced some time ago the transfer would be made and that military defence of the arsenals would open to the munitions and supply ministry.

Col. D. & Dewar, hitherto connected with the clothing, equipment and manufacturing division of the defence department, will continue as director-general of the arsenals under the munitions department.

Col. A. Thériault, associated with Col. Dewar as chief superintendent of ordnance factories and ordnance stores of Col. Dewar's staff, will transfer with him to the munitions department.

Col. Dewar is a native of Prince Edward Island and enlisted in the regular army in 1906. After the war he was in charge of the return to Canada of an equipment of the Canadian Corps.

Col. Thériault was born in Rimouski, Que., and was attached to the Royal Canadian Ordnance Corps during the war.

His munition staff was made chief superintendent of ordnance factories, with full charge of the arsenals.

British Seaplane Guides Hospital Ship To Wreckage

ALEXANDRIA, Egypt, Oct. 18.—A British seaplane guided an Italian hospital ship toward the wreckage of Italian destroyers sunk by the British cruiser "Ajax" off Sicily. The naval aviators reported Thursday.

The seaplane was in patrol duty in the central Mediterranean area when it sighted a vessel identified as the Italian hospital ship "Agusta" and directed it to the remains of the Italian destroyers. It was flying over a vast area of sea, two to three miles wide, where the wreckage were five or six days ago.

U. S. CONSIDER SENDING FOOD TO SPANIARDS

By J. C. STARK
Associated Press Staff Writer
WASHINGTON, Oct. 18.—President Roosevelt, however, canvassed the problem of American relief for Europe with state department and Red Cross advisers Thursday and it was expected a large commitment of food might be sent to non-belligerent Spain.

At the White House conference with the President, with secretary of state Charles E. Hull, undersecretary Sumner Welles and Nathan Davis, chairman of the American Red Cross, it was described officially as related to the "refugee" question but secrecy was observed as to what plan was discussed or whether decisions had been reached.

Some trusted observers returning from Europe have described the food situation in Spain as practically as bad as in France, and other German-occupied countries.

Positively affecting the question of relief for Spain, however, was the appointment of Roman Servant, brother-in-law of Gen. Francisco Franco, as Spanish foreign minister.

Coming after Hitler's recent extended visit to Berlin and Rome, this was interpreted widely as a further shift toward the Nazis, and whether Spain, still suffering the effects of civil war, would become active ally of the axis in the war.

Britain's attitude would be an important factor in any relief plan for Spain or France, both because of the British blockade and the question whether American aid might indirectly benefit Germany and Italy in the prosecution of the war.

Refuge Letters

BUDAPEST, Oct. 18.—Hungarian postal authorities are refusing to accept letters bearing new Hungarian stamps commemorating Romania's decision of Northern Transylvania to Hungary, the Hungarian post office officials said Thursday.

The stamps about the Hungarian crown with the inscription, "East Returned," Northern Transylvania now forms the eastern part of Hungary.

National Home Marking 24th Anniversary Here: To Celebrate With Sale

Distinction of having the largest store in the matter of floor space in all western Canada that deals solely in home furnishings, is held by the management of National Home Furnishers Ltd., 9036 Jasper avenue. This firm on Friday observes the 24th anniversary of its establishment in Edmonton.

General Manager Ronald Maund has decided to celebrate a near-quarter century of progress by staging a sale that will last from Friday until the end of the month.

Several carloads of furniture, electrical equipment and washing machines have been brought in from eastern manufacturers for the anniversary sale. For several days the staff has been busy with the packing and setting up of this large stock and everything is all ready for the sale.

STORE GROWS

Starting in a modest single store structure 24 years ago, the National Home has never found it necessary to move from the first location but has expanded nevertheless in a three-dimensional form. The store now occupies ground floor, second story and basement, all full size and the total overall dimensions are about 100,000 square feet.

"Everything for the home" is the slogan of the company and it is to the store will soon convince a person that this is no exaggeration.

Newly-married couples, starting out to furnish a home, are constantly in need of help by the company and it has been the policy to draw from the great variety of 24 years experience by competent and highly skilled specialists on the staff to counsel young couples in their requirements for opening housekeeping.

JACK-AND-JILL HOUSE

Unique to the point of being the only one in existence in Canada, the company's building, Jack-and-Jill house is an outstanding feature of the National Home. This consists of a five-room modern bungalow built right on the premises and is a complete house to the abutment on the roof. With hardwood floors, plumbing fixtures complete, the staff uses it for demonstration purposes.

When a young couple, or a person, has selected furniture they think they like to purchase it is taken to the Jack and Jill house and arranged in any manner the prospective purchasers desire. In this manner dangers attendant on faulty memory of room arrangements are completely eliminated.

The buyers know just how things will look in their own homes and are not having a "let-in-the-bag" as is so often done in the case of furniture.

Woman Acquitted For Second Time On Murder Charge

PRINCE ALBERT, Sask., Oct. 18.—Mrs. Isabel Enrie, 38, was acquitted last night by a court of King's Bench jury of the murder of her husband, Henry Enrie. It was the second time the woman had been acquitted on the charge.

A staff of 25, all experts in their own departments, stand ready and available at all times to assist members of the general public who have problems in furnishing.

From the vantage point of 24 years, the National Home looks back with satisfaction and pride over its history and forward to an even more successful period of service in the years to come.

RELIEF URGED FOR LONDONER IN FIRE ZONE

LONDON, Oct. 18.—The Times today approved the suggestion of Lord Hailsham, noted surgeon and physician-in-ordinary to the King, that "a system of relief akin to that applied to troops in the line should be organized for those who are continuously subjected to the danger and noise of aerial bombardment."

"Our lives cannot be run on a peace-time line by any more adaptation of the peace-time authorities," the newspaper declared in an editorial analyzing air raid defenses.

Commenting on "certain hygienic and administrative adjustments to be made from the results of air raids," the Times said: "The course of the German air offensive which continues to concentrate mainly on London, shows that these questions are becoming more and more urgent."

Dutch Tanker Is Reported 'Gunned' Off Spanish Coast

NEW YORK, Oct. 18.—The Netherlands tanker Quilla, 8,411 tons, reported she was "being gunned" near Cape Bonifacio, and a message picked up Thursday night by Macy radio.

The distress signal was relayed here by the American freighter Washington. No further details of the attack were given.

OTTAWA PLANS ISSUE OF WAR POSTERS SOON

OTTAWA, Oct. 18.—Canada, it was announced Thursday night, is to have her own wartime posters and H. O. McCarty, director of the National Gallery, will head a voluntary advisory posters committee for the direction of public information. The plan is for a new war poster each month.

Announcing that "we are going into posters" an official at the office of the director of public information said there are three types or groups of posters to be considered. The first is inspirational, going back into the history of the country. "You did a good job before, you can do it again," the Times said.

The second group comprises posters dealing with such matters as giving away valuable information through careless talk and also the war savings campaign.

The third will concern special campaigns, matters of government policy. For example he held it conceivable there might be a drive for conservation of certain foods. These posters will be released from time to time as seen fit.

Dies In Crash

REGINA, Oct. 18.—Walter R. Steen, about 50, well known Regina furrier, was killed almost instantly Thursday, when his automobile struck an eastbound Canadian Pacific freight train on a level crossing at Penae, 18 miles west of here.

CLIMATE SEEN AS FACTOR IN FAVOR R.A.F.

Winter Weather Over
Germany Lacks Moisture
Favorable For Flying

By KIRKE L. SIMPSON
Associate Press Staff Writer
WASHINGTON, Oct. 18.—Climate factors at both ends of Great Britain's long battle line, from Britain to Egypt, are working in her favor as the braces to meet the winter strategy of her axis foe.

In Western Europe, chilly October fairs, admittedly hampering aerial warfare for both sides, gave bomb-blasted London a period of relative peace. Wednesday night, although the Germans retained the attack, the British were able to retaliate.

In Egypt the rains have come. During the next two months, it is not likely that too much water will be apt to complicate Italian efforts of cracking the British block. In mid-day temperatures above the 120-degree mark, it may be that the having waited this long to leave his army in Egypt on toward Alexandria, Mussolini will have to wait until the rainy season ends there.

NAZI CHANCES RUINED
Moreover, the weather and the Royal Air Force have virtually ruined Hitler's chances of invading Britain this year. Even Indian summer is almost over in the west.

Europe and the war there is settling down for a winter horror of bomb terror and starvation. The British are planning to wait for the winter of bombing to begin, then they will be ready to fight. Their daylight reception, however, again emphasized that it is in the dark, not in daylight, that the air bomber can do his greatest damage.

That is why the British are planning that side will have the best weather to add it during the winter of bombing for which both Britain and Germany are preparing. The answer seems to be in Britain's favor.

MOIST AIR
Weather experts say that the atmosphere high over Germany probably will have a relatively low moisture content. The upper air strata over Britain, on the contrary, is heavy with moisture in winter, on it is the most of the rest of the year.

Moisture-laden upper air is dangerous for aircraft. It is apt to icing of wings and upper surfaces. Ice conditions at the upper levels could be a better picture in winter for London and most of Europe, than any air attack even British fighter planes. On that account, many a night of virtual cessation of Nazi air attacks may be ahead for the British.

But if the weather experts read their signs aright, Berliners or other Germans will not enjoy as frequent spells of rest from Royal Air Force bombers.

Canada Prepares For Power Survey

OTTAWA, Oct. 18.—Canada was said authoritatively Thursday night, is prepared to take care of its share of the preliminary survey looking to power development in the International Rapids section of the St. Lawrence River. This statement came from officials when commenting on President Roosevelt's announcement the United States had allocated \$1,000,000 for the purpose.

AMBASSADORS IN BALKANS TO HOLD MEETING

Turkey Continues to Voice
Defiance To Axis
Powers

ISTANBUL, Turkey, Oct. 18.—Preparations for a conference of British diplomatic representatives in the Balkan countries, which is expected to be held here today as the Turkish radio voiced new defiance to the axis powers and their aspirations in the east.

Word of the impending conference was circulated following the arrival in Istanbul of George W. Buellet, British minister in Bulgaria. The British ministers to Yugoslavia and Greece are expected to join Buellet and Sir Hubert Knatchbull-Hugess, the British ambassador to Turkey, in the next few days.

GREENS MEET AXIS
Axis diplomatic activity, meanwhile, was reported from Athens by the official Turkish radio, which said that the German and Italian ambassadors in Athens had met with the Greek foreign minister yesterday.

The Turkish radio warned the axis powers last night that if they attempted a drive across the Dardanelles to Egypt and the Near East, they would find Turkey a tougher nut to crack than either Netherlands, Belgium or France.

The commentator recalled the resistance the Turks offered the British in the Dardanelles in the last war and said: "There is no doubt our resistance this time will be even stronger. Just as we depend on our army, the British depend on their navy. For instance, motorized troops can only move with difficulty here and the axis powers would not want to risk a long one."

MOSCOW PRESS SEES FAILURE GERMAN RAIDS

MOSCOW, Oct. 18.—The Russian army newspaper, Red Star, commenting on the Battle of Britain, said Thursday that "present actions show that air supremacy belongs to neither side" and added that the Royal Air Force "have not been 'downed' and have even extended the field of their operations."

Despite the successful German in destroying ground planes in France and Poland by surprise attacks, the German army, which repeat these successes in England, owing to lack of information about locations of field and air forces and excellent road systems enabling the British to use their tanks, armoured divisions and well-protected hangars, the Soviet newspaper said.

Therefore in their most successful attacks the Germans have only succeeded in wiping out 41 German ground planes in a day compared with 300 or 400 a day in France. Red Star estimated there were at least 100 aviation plants in Britain and said the Germans must use 20,000 bombs to wipe out the industry.

GERMANS RENEW LEAFLET RAIDS GREAT BRITAIN

LONDON, Oct. 18.—Germany has renewed leaflet raids on Britain this time lampooning Prime Minister Churchill in pictures showing him with a "Tommy gun" and captioned: "Wanted for Incitement To Murder."

The leaflets showered on the east coast said: "This gangster who you see in his element in the picture incites you by his example to participate in a form of warfare in which women and children and ordinary civilians shall lose leading parts."

"This absolutely criminal form of warfare, which is forbidden by the Hague convention, will be punished according to military law."

"Have at least your families from the horrors of war!"

Exception Taken By Roosevelt To Mis-Statements

PITTSBURGH, Oct. 18.—President Roosevelt sent word to a Democratic rally last night that "there has been no such deliberate misrepresentation in this campaign. I am determined to correct these mis-statements and give the true facts to the people."

Mayor La Guardia of New York read the message after discussing what he described as "reckless, irresponsible utterances" of Republican candidate Wendell Willkie.

The president's statement apparently referred to his announced intention of making four political speeches soon.

Scout Officer Is Held For Court Martial By U.S.

MANILA, Oct. 18.—Arrest of Capt. Raul Romo, of the Philippine Scouts, on suspicion he was preparing to give several confidential documents of unauthorized persons was announced Thursday by the United States army intelligence service.

Romo, a graduate of West Point, was held for court martial. He has been attached to the 14th Engineers, U.S.A. Capt. William McKelvey, Two Philippine Scouts also were arrested. Philippine Scouts are members of the United States army with the exception of those taken into the Philippine army.

Times Finds Fault With British Air Raid Communications

LONDON, Oct. 18.—The Times said editorially today that British communications dealing with air raids "leave much to be desired," adding: "It can only cause unnecessary anxiety to use such phrases as a famous London square" or "a well-known public school in the home country" in connection with raids.

"Nor does it accord with the feelings of those who have suffered heavily on any one night to see in the morning communique the statement that raids have been 'on a somewhat smaller scale than those of the previous night'."

"These generalizations, however true they may be of events over the whole country, do more harm than good and are certainly unnecessary if they are intended as a reinforcement of public morale. That depends very largely on the scale and success of the various forms of our material defenses."

Civil Service

OTTAWA, Oct. 18.—Civil service examinations for 6,000 candidates will be held here Saturday in conjunction with examinations across Canada for which 15,000 have applied. It was announced Thursday.

The examination this year will be limited to one paper instead of the usual three, including questions on arithmetic, spelling, English, general intelligence and accuracy.

NO SURRENDER TO JAP BLUFF PITTMAN SAYS

RENO, Oct. 18.—Senator Key Pittman, chairman of the foreign relations committee of the United States senate, Thursday night called the Japanese foreign minister a "bluffing bull."

In a political address for radio broadcast, discussing the foreign situation and the news, Senator Pittman said the Japanese foreign minister, Matsuo, was "bluffing the bluffing of the Japanese military clique which has threatened the United States with war unless we surrender our rights in the Pacific and cease to protect against the mistreatment of our citizens in China."

"We will do anything honorable to reach a peaceful adjustment, but we will not surrender our rights by reason of a brutal bluff made by an insignificant Japanese soldier," Pittman said.

Used Shelter Help

MANCHESTER—Talk about over-enthusiasm—a restaurant owner moved his kitchen staff with the day's vegetable into a shelter during an air-raid alarm and with added voluntary help had the eatables prepared in quick order.

Looking Them Over

By Jack Kelly
New Cage Deal
First Practice
Get 'Em Quick

WHEN the Edmonton Grads dissolved twenty they handed the rest of the basketball world a new deal that made the championship chase a wide open affair again instead of just an advance to the final and then inevitable defeat at the hands of the perennial dominion and international champion.

The Grads even farther for their home city, however, when they launched the new organization that will keep senior girls' basketball alive here in the form of the Comets and an intermediate feeder team to be known as the Starlets.

Grad money, personnel and technique will go into the new machine—and this ought to give it a mighty fine start. So far as is known at present, Ray McRitchie is the only former Grads player who will take the floor in the Comet line-up. I have a hunch though that one or two other former Grads will saunter to the hazy of the game and get into training again before long.

Last night the new machine was given a sort of preliminary inspection at McDougall Commercial. Coach Bill Douglas of the Comets and Coach Claude Hollingsworth of the Starlets checked over a number of prospective players along with Percy Paue and made a rough division of the talent on hand.

At present it looks like the Gradients of last year will pretty well make up the roster of the Comets while the Starlets will absorb a number of promising players that were coming up through the Grads feeder system but are not yet ready for senior competition.

Both coaches, however, will welcome any girl who wants to try for a place on their team. The first regular practice will be held Monday evening at McDougall Commercial. The Starlets will drift from 7:30 to 8:30 p.m. and the Comets will work out from 8:30 to 10:00 p.m.

No city girls league will be opened this season since it is felt that in order to insure the success of the new organization a few more girls would have enough caliber to make a worthwhile bid for provincial and dominion honors. Comets and Starlets will content themselves with games against other teams in the city.

It is regrettable that a girls city league can not be operated here during the winter months even though neither Comets nor Starlets are in it. There are scores of girls that would be glad to play just for the fun of it without any thoughts of going into title playoffs. Lack of gymnasium space is apparently the reason that such a practice league can not be organized.

☆☆☆

Note To The Shooting Fraternity

IF YOU want to take a shot at some of those ring-necked pheasants that you have caught glimpses of off and on in recent years, this Saturday will be your last chance. It will be the last day of a special three-day season declared in two specified areas.

One of these areas is bordered approximately by a line starting at Winfield and running north to Westlock, then east to Radway, south to Camrose and west through Wetaskiwin to Midland. The other area lies in the Empire constituency in the south-east corner of the province.

However, shooters can kill only cock pheasants and not more than three in a day or six for the three-day period. A special license costing one dollar is required although farmers may obtain a special license to shoot cock pheasants on their own land free of charge.

The order in council granting this special open season on the beautiful design was made in order to reduce the number of cock pheasants. The males were getting out of proportion and this was proving detrimental to propagation.

Clapper Captain

HENRIETTA, Pa., Oct. 18.—Arthur "Doc" Clapper, veteran defense man, has been named captain of Boston Bruins of the National Hockey League. Art Bione, general manager, announced today.

Regulators Sign Ranges

LESTER Patrick, manager of the Rangers, announced Thursday night he would try Bill Jagers, star defenseman with Kenora Thistles, next season, on defense with the Rangers. Jagers has signed a contract to play with Philadelphia, but he was anxious to see how he would do in major league company.

He said it was possible he would use some other Rumber players in later games at Regina, Saskatoon, Winnipeg and Port Arthur.

Bollaert-Bergna Lead Bike Racers

MONTREAL, Oct. 18.—Bolling from fifth place in Montreal six-day, Bollaert-Bergna took over the lead early today.

The two early favorites, Thorpe and Victoria, and Bollaert-Bergna, took over the lead in the first half of the race.

One day, 10 p.m. M.S.T. Thursday standing:

Team: Miles Last Place
Bollaert-Bergna 1,247 9 284
Yakov-Dubois 1,247 8 390
Belmonte-Audy 1,247 8 390
Bollaert-Bergna 1,247 8 390
Deane-Yarnon 1,247 8 179
T. Peden-Cyr 1,247 7 512
McCullin-Anderson 1,247 7 384
Sellingier-Keller 1,247 4 149

Curlers To Meet

Edmonton Curling Club is holding a general meeting for November 4 at which plans for the ensuing season will be discussed. All club members and curling enthusiasts are invited to attend the opening jammer.

The meeting will be held at the rink.

Training Ice Chops

By The Canadian Press
THE "Joe College" of the Toronto Maple Leaf club is defenseman Wally Stanowski, who specializes in bow-ties and wide-brim hats. The Winnipeg boy claims his ties this year are an inch wider and two inches longer than usual.

And those hats, which they're almost as wide as the goal-mouth.

One of the best conditioned players with Toronto Maple Leafs at this early date in the training period at St. Catharines, Ont., is Reg. Hamilton. He and Jack Church form one of the best defense pairs in the Toronto camp.

Join the army and put on weight: Glen Gosselin, of Montreal Canadiens says he worked him out in a steady 185 pounds during heavy training on the farm during the summer. Then he spent three weeks in training with the N.P.A.M. at Farmington, Conn., reporting immediately afterwards to Canada for training at St. Catharines. Coach Gosselin says he is looking at camp but he put on an extra 15 pounds.

Merryn "Red" Dutton, the fiery manager of New York Americans, has a lot of brains in the use of new days for his ice team players. Red expects a lot from

Governors of N.H.L. Agree to Bonuses for Amateurs

Accept All Clauses New C.A.H.A. Proposal

By H. M. PETERS
Canadian Press Staff Writer

NEW YORK, Oct. 18.—Governors of the National Hockey League, in probably their last session before the ice game gets under way for the winter, Thursday authorized President Frank Calder to sign an agreement with the Canadian Amateur Hockey Association under which the N.H.L. pays cash for amateurs who sign pro contracts.

The all-day meeting, attended by representatives of all seven clubs, discussed at length the referees' situation, but spent most of its time going over clause by clause the agreement with the C.A.H.A.

This agreement, accepted in principle at the last meeting at which W. G. Harty of Edmonton, representing the C.A.H.A., was present, had as its principal clause a question of payment by the N.H.L. to the C.A.H.A. of a sum of money to reimburse amateur clubs for their expenses in training players.

It was agreed that the N.H.L. will pay \$200 to the C.A.H.A. when any amateur player signs a contract offered by a professional club in the minor league affiliated with the N.H.L. If the player signs an N.H.L. agreement the C.A.H.A. receives an additional \$200.

C.A.H.A. DISTRIBUTES
This money will be disbursed by the C.A.H.A. in the place of players' salaries to amateur clubs for training.

It was also decided that in cases where the player after signing a contract is unable to find employment at a professional club, the N.H.L. will apply to the C.A.H.A. that the player be reinstated as an N.H.L. player.

The new agreement also covers the situation of amateur players in the British Ice Hockey Association, the British Amateur Hockey Association of the United States, at that similar sum will be paid in the event that an amateur player is unable to find employment in the jurisdiction of those bodies, all of which with the C.A.H.A. are members of the International Hockey Association, are signed to professional contracts.

PEACE-MAKER
Art Ross, manager of Boston Bruins, offered to approach Stewart, the referee and baseball umpire, to see whether a dispute that has arisen over Stewart's services can be settled before the season.

It was explained that the league last year decided to offer to all referees a contract, similar to that given to players and coaches, containing a minimum salary and a leave clause. Stewart balked at the clause and in a letter to Calder said he was through.

Ross, however, said he believed Stewart would work a mutual understanding, and the meeting agreed that it take over with the referee. If Stewart then wants to sign the contract, he can do so.

MINIMUM OF \$2500
The contract similar to those offered to King Clancy and Mickey Vernon for a minimum guaranteed of \$2500 for the season, and a bonus of \$75 a week. A referee working more than 46 games a season will receive more than the minimum.

Similar contracts but for a somewhat smaller amount, have been offered to the league's other referees.

Calder told reporters following the meeting that the considerable difficulties international requirements in regard to passports, visas and foreign exchange had all been met.

Leaf Snipers Have Good Day
By DICK SHERIDAN
Canadian Press Staff Writer

ST. CATHARINES, Ont., Oct. 18.—The snipers had their inaugural triumph as the Toronto Leafs set out to make up time lost to other National Hockey League clubs which started training earlier. Goals were plentiful as fast around the Niagara peninsula and two of the top scorers were Gordie Drillon and Sawney Schirmer, veteran workmen who, at one time or another, had played for the Leafs.

Drillon bagged at least five goals while Schirmer got four.

Another player who shaped up well was Billy The Kid Taylor. Flanked by Nick and Don Metz, he displayed some of that uncanny stickhandling and puckhandling that stamped him as the country's greatest young two years ago.

Bill, Calgary, broke defenseman who played with University of Toronto seniors last year, injured the thumb of the right hand and was forced to the sidelines, first casualty of the war.

Cop, budding for a defense spot, was a student in dentistry at the University of Toronto. He is the first of 7 students to ever come to the Leafs training camp.

Last year he played for country and was drafted as a center. Coach Art Ross had no more good forwards to recruit to convert Cop into a defenseman.

Hold Sleet Shoot
By DICK SHERIDAN
Canadian Press Staff Writer

LOVINGHAM, Ont., Oct. 18.—The local branch of the Fish and Game League held its fourth annual shoot this eve with 25 competing. Alan Young's team, the other members of which are Roger Jones, Dave Jones, Jim Young and Art Young, won the Calgary brewing trophy with a score of 40 points. Jack Swift's team, including Jack Taylor, George Miller, Robert Moore and Grant Ritchie, finished second with a score of 39 points. Third place went to Charles Condon, team with a score of 37, other members being P. A. Miller, H. A. Bygones, C. H. George and Charles Miller.

Jack Swift took first place in three open competitions. Art Young's team was fourth, placing in the shoot. The prize was a silver cup. The shoot was won by the team of P. A. Miller and Dave Jones.

E.A.C. Battle South Side Tonight; Bears Meet Leaf Threat Saturday

Tonight at Clarke Stadium, weather permitting, the Edmonton Athletic Club and the South Side Spartans will go gunning for each other's scalps in City Junior Football League fixture that will start at 8:30 p.m. under the floodlights. The E.A.C. will be battling for its first win of the season while the Spartans will be fighting for a win to keep them even with the Maple Leafs in the race to the playoffs.

REARDON-BENOIT RECEIVE OFFERS FROM CANADIENS

Start of the provincial junior playoff with the Calgary champions is tentatively set for October 20. Since varsity does not enter the city league at the close of the city league, they will fall to either the Maple Leafs or South Side. Both are set to present in the standings. Last scheduled game involving only the teams eligible for the provincial playoff at last Oct. 22.

Saturday afternoon will bring what promises to be the big game of the league to date—Maple Leafs at Vancouver. Both teams are in the strong South Side crew, which finally was able to beat by 12-6, stamping them as the club that may hand the Golden Bears their first defeat. The game is at Varsity Stadium at 2:30 p.m.

Another rookie expected to make a name with the Flyers is Fred B. Chitty, 51, a former golf professional in England who as a boy was expected to have written King Edward VIII to play golf, is dead.

NEW HEAD OF NAVAL FLEET IS SELECTED

Admiral Tovey Heads the Home Fleet—Appointment "Significant"

LONDON, Oct. 16.—(AP)—Admiral John C. Tovey, one of the youngest admirals in the royal navy, was appointed today to the supreme command of the home fleet. He succeeds Admiral Sir Percy Blackett, who has been selected for a "special duty" at the admiralty.

Appointment of 56-year-old "Jack" Tovey to be commander-in-chief of the home fleet was regarded as a highly significant event in the history of the navy. Tovey, who has been appointed to the post of commander-in-chief of the home fleet, is the youngest of the admirals who have held the post since 1914.

The appointment of Tovey to the post of commander-in-chief of the home fleet is a significant event in the history of the navy. Tovey, who has been appointed to the post of commander-in-chief of the home fleet, is the youngest of the admirals who have held the post since 1914.

Shelter At The Savoy

Here's one of the underground shelters at London. Savoy hotel guests and employees find these shelters when the German bombers come over.

Indicating little is known about "Jack" Tovey is the fact that he is a highly significant event in the history of the navy. Tovey, who has been appointed to the post of commander-in-chief of the home fleet, is the youngest of the admirals who have held the post since 1914.

BEEKEEPING PROFITABLE TRADE HERE

District Association Aids Those Wanting To Engage In Business

Entomologists tell us that there are approximately one-half million kinds of insects on this planet. One naturally wonders why all of them were created. It has been said that the bugs may eventually eat us. Millions of dollars are spent annually on insect control. In fact, entomologists are so busy trying to control insects, they are not planning life that they have not had much time for the honey bee, one of the very few insects that are kept commercially.

It is assumed that insects are created in plants primarily to attract insects to them to bring about the pollination of the blossoms. As the bees and other insects fly from blossom to blossom and thus distribute the pollen. We are told that bees are ten times more valuable as pollinators than they are as honey-makers. When a wonderful provision nature has made and what an important part the honey bee plays in the pollination of fruit, vegetables and other blossoms.

Bees have been kept long enough to be called domesticated. They have been used for honey, wax and for the production of silk. It is said that the first beekeeping was done by the Egyptians. It is also said that the first beekeeping was done by the Egyptians. It is also said that the first beekeeping was done by the Egyptians.

The industry has, indeed, found a new lease on life in beekeeping. The keeping of bees has been found to be a profitable business. The keeping of bees has been found to be a profitable business. The keeping of bees has been found to be a profitable business.

The average modern commercial beekeeper is in business primarily for profit. He keeps bees for honey, wax and for the production of silk. He keeps bees for honey, wax and for the production of silk. He keeps bees for honey, wax and for the production of silk.

The sideline beekeeper has more time as a rule to really enjoy his hobby. He keeps bees for honey, wax and for the production of silk. He keeps bees for honey, wax and for the production of silk. He keeps bees for honey, wax and for the production of silk.

Again your local beekeeper's association, the Edmonton and District Beekeepers' Association, with offices at 5 McIntosh Hall, phone 3221, invite you to join them. We are keeping bees and we want you to join them. We are keeping bees and we want you to join them.

West Coast Point Seen Launching Of Trim Naval Craft A WEST COAST CANALIAN PORT, Oct. 16.—A trim Canadian type ship of war, named HMCS Port, built by British Columbia's interior shipbuilding industry, was launched here Thursday and will join a number of sister vessels in the service of the Royal Canadian Navy.

At Lethbridge LETHBRIDGE, Oct. 18.—The Museum of Lethbridge, British Columbia, is planning to have the first of a series of lectures on the history of the province. The first lecture will be given by Mr. J. H. McLeod, a well-known local historian.

HONEY WEEK

OCTOBER 18th to 26th

Sponsored by the Edmonton and District Beekeepers Association

Busy Bee Bases Job On Methods Of Man: Honey Is Fine Food

Provincial Apiarist Tells Interesting Tale As Alberta Beekeepers' Association Holds Convention In City

When the tired businessman comes home from a hard day at the office he probably doesn't realize—and why should he?—that his day's work has been an nothing compared to the amount of working-time put in by the average bee! As a matter of fact, the bee's way of working, and even living, is in many respects similar to our own, according to a report made this week by W. G. McMaistre, provincial apiarist.

The report was made in connection with the two-day convention of the Alberta Beekeepers' Association which closed here Friday. The report was made in connection with the two-day convention of the Alberta Beekeepers' Association which closed here Friday. The report was made in connection with the two-day convention of the Alberta Beekeepers' Association which closed here Friday.

THE YOUNG BEE is no slower to look around for himself and see how the old world looks than he is faced with the necessity of getting to work and cleaning the cells of the hive where he is attached. These cells are of course made by the bees themselves and are used as nurseries and again as storerooms, and the bee, like the human, insists that his quarters be kept clean.

THE YOUNG BEE is no slower to look around for himself and see how the old world looks than he is faced with the necessity of getting to work and cleaning the cells of the hive where he is attached. These cells are of course made by the bees themselves and are used as nurseries and again as storerooms, and the bee, like the human, insists that his quarters be kept clean.

McMaistre, Provincial Apiarist

Love has been in the business here for 23 years and last year sold 100,000 pounds, including 300 cases, which were shipped to England. This year he has orders on hand from England which he will be unable to fill. There were 2,000 cases called for, but the demand is too great for him to meet in full.

MA

IT'S WASHER WEEK IN EDMONTON

Edmonton Stores Are Now Showing the Latest In
Modern Electric Washers and Ironers... See Them!

Good Old Days Not
Really Very Good:
No Washers in Use

Modern Marvel Makes Monday Cheerful As
Machines Move Load From Today's
Smart Housewife

"In the good old days"—you'll hear folks say! "What was so good about them?" the housewife answers, who can remember that not-too-distant past when wash day was christened "Blue Monday."

"Those good old days," when the little woman was up at 5 a.m. to put the water on the stove so that it'd be hot by 8, when three or four old tubs had to be rinsed for the day's work ahead.

At 9 a.m. she'd be in the kitchen, and at 10 a.m. she'd be in the laundry. For the housewife, wash day was a day of hard work and long hours.

With the sales of ironers now higher than they have ever been since being put on the market a little over 10 years ago, interest is keen in quality and ability of the product.

When purchasing an ironer, the buyer should be sure to get the best possible value for his money. The ironer should be made of a sturdy material and should have a good reputation.

When people are saving themselves fatigue, time and power by investing in an electric ironer, one of the greatest labor savers yet invented.

Drop in at your nearest ironer dealer today and look them over.

See NIX for ELECTRIC WASHERS. We are the Official Parts and Service Dept for Connor and Easy Washers.

We Sell and Service: ABC Washers, GE Washers, Westinghouse Washers.

Buy your washer where you get all service always. J. E. NIX CO. Next to Post Office (Opp. Market Square).

City of Edmonton

ELECTRIC LIGHT AND POWER DEPT.

\$23 and a small gentleman's wristwatch worth \$12.50, were taken from drawers in a bedroom bureau.

The burglary was discovered by Lorne Robertson.

Had Good Winter

ALBUQUERQUE, N.M., Dec. 10. — The winter season has been a good one for the city, with a fair amount of snow and a few days of cold weather.

season was exceptionally favorable for dairying output and exceedingly good season for sheep farming, making export wool for Britain of better quality.

Radium Safe From Nazi Bombs

Hidden away in a cave where German bombs could never penetrate, are one and a half grammes of the world's most precious substance—radium. Kept in solution, the radium is the property of the Christie Center Hospital, Manchester. Every week the technicians go to the caves to collect the valuable gases for use in the fight against cancer.

Former U.S. Destroyers Arrive In England

British tars from different ex-U.S. destroyers congratulate each other top over the side of their vessels on their arrival at a British port. The destroyers are the first flotilla of the 50 American destroyers recently transferred to Britain. Four of the destroyers, the leaders in the parade of the first flotilla are shown, bottom, arriving at a British port as an R.A.F. flying boat (lower) sets at watching.

Destroyers Arrive In Britain

British sailors try out a high angle gun on board one of the first of the U.S. destroyers to arrive in Britain under the lease-destroyers exchange deal. The first flotilla of the 50 ships joined the Atlantic under the white ensign, and officers and men expressed themselves as well satisfied with performance of the vessels.

Letter Home

The well-known British rugby player, G. J. Dean, takes time out from his important duties on the Libyan frontier to write a letter home to England. An officer in the royal tank regiment, he finds this lightweight outfit better suited for the blazing heat of the desert.

War Machine

In the first shakeup of the Japanese Army's high command since 1891, General Goto Sato, above, was recently named chief of the Imperial General Staff. A former War Minister, he has been serving on the Supreme War Council.

Defence Board Heads Meet Press

O. M. Bigger, Canadian chairman, and Mayor F. H. LaGuardia, American chairman, of the Joint Defence Board, are pictured as they chatted with members of the press during a meeting of the Defence Board at Charlottetown Navy Yard.

Society Girls Picket Society Party

"Aid to France is all to Hitler." The signs on the placard explains who the Friends of France, Inc., were picketed when they gave a party at Monte Carlo, in New York City. The pickets were society girls, which is, itself, something surprising.

Between Berlin Bombings — Reports and a Snack!

These British fliers, in between bombing raids on Berlin's industrial centres, have returned to their squadron headquarters and are making their reports to intelligence officers. Spread out before them are maps of the areas bombed, and when one of the pilots says he dropped a bomb "here" or "there"—well, there is no guess-work about it! The serious importance of their "job of work" is mirrored on their young faces.

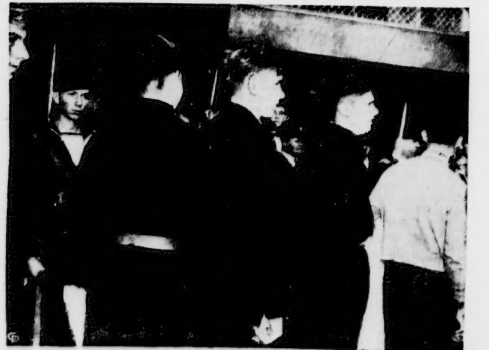

Canada Calls Up Physically Fit Youth for Military Training

Under the direction of Hon. J. G. Gardiner, minister of national war services, 20,000 physically fit young men between the ages of 21 and 24, inclusive, are being called up for military training. Shown above are scenes of activity in the Montreal division, largest administrative division in Canada. In upper left, Mr. Justice A. Robson, chairman, hears an employer who asks that training of his employees be postponed to a quieter season. Such boards ensure industry against disruption. In upper right, Fernando Biledeus aka Raymond Rungis, assistant registrar, if he is required to answer the call. He turned 21 on July 14 and wants to know his age class. At bottom is a section of the filing room where detailed medical report is kept for each man called for training.

Leading Banker

P. D. HOUSTON, chairman of the American National Bank, of Nashville, Tenn., is pictured in Atlantic City, N.J., where he was elected President of the American Bankers Association at their recent convention. He will work for "improved banking service through effective co-operation."

Crew Of German Freighter On Way To Internment

On her first voyage after being re-fitted as an armed merchant-cruiser, H.M.C.S. Porpoise (Robert) joined the German freighter Weser off the Mexican coast and acted so swiftly that the Weser crew did not have a chance to scuttle the ship, although all preparations had been made to set her afire at a moment's notice. The captured crew of the Weser are pictured here under guard at a station Canadian port.
